

Grade 5

Literacy:

Reading, Writing, Speaking and Listening are taught on a daily basis and will be related to the Integrated Studies topic.

In Reading, the focus will be Reading and Understanding Poetry and Imaginative Texts. When exploring Poetry and Imaginative texts, students will develop their understandings of reading skills to apply before, during and after they have read the text. More specifically they will be developing the following reading skills in their explicit lessons;

- Decoding, fluency, questioning, summarising, inferring / visualising, determining importance, synthesising and also analyzing the author's craft and critiquing their work.

In Writing, the focus will be on developing the student's ability to write imaginative texts with Poetry as a main focus. The students will also engage in developing a specific craft modeled by a successful author. The final unit of study is creating a portfolio of writing of mixed genres, students have the opportunity to select their favourite genres and complete these based on a topic of their choice. Skills taught during these units will include developing ideas, structure, features, language and craft. Concurrently students will have explicit spelling and grammar lessons in context with their writing lessons.

Speaking and listening through a dialogic approach

Across all topics the students will develop their understanding of specific academic vocabulary through immersion and building the field. The students will be expected to use apply this language in full sentence and transfer this into writing. Teachers will be challenging student thinking by prompting students to add to their responses, justify their answers and build upon to other class member's ideas. Students will learn the skills of respectful collaboration and challenge when working in small group and class discussions.

In Mathematics, students will practise number fluency skills daily. In Terms 3 & 4, students will be learning the following mathematical concepts:

- The four operations
- Fractions & Decimals
- Money
- Number patterns
- Angles
- Location
- Measuring length, perimeter, area, volume & capacity

Chance & probability

Grade 5 Specialist Community Curriculum Overviews

2019 Semester 2

Performing Arts

Students will be spending the semester devising, rehearsing and polishing a dance performance ready for presentation at the highly anticipated Success Day in October. During Performing Arts dance sessions, students will enhance their gross locomotive skills through body movement, work in teams onstage and build their self-confidence. Students explore dramatic timing and space through choreography and have the thrill of performing to our wider community on a professional stage at Success Day.

Visual Arts

During Semester Two the Grade Five students will be working in the areas of Construction and Drawing.

In the Construction unit the students will be looking at tribal masks from different cultures around the world. They will then use cardboard, hessian, paint and various decorative techniques to create their own version of a tribal mask.

By the end of Term 3, the students will be able to:

Use cardboard to make a base for the mask.

Use 3D folding techniques to create features for the mask.

Use hessian or materials to create a textured skin for the mask

Effectively paint their work.

Use various materials to decorate their work.

In the area of Drawing the students will be focusing on various methods of portraiture. They will be studying symmetry and ratio to enhance their work.

By the end of Term 4, the students will be able to:

Draw a portrait using symmetry and ratios.

Use symmetry and ratios to draw a portrait of friend.

Use wax resist and food dye to enhance work.

Use measurement to ensure symmetry.

Create their own portrait in the style of Picasso.

Physical Education

Students will be spending time during the beginning of Term 3 learning, practising and mastering different athletic techniques to help them compete at the annual RHPS House Athletics Day. Students will take part in a 3 week intensive training course designed to help students develop the relevant skills in the following track & field athletic events; 100m sprint, hurdles, relay teams, shotput, discus, long jump, triple jump & high jump. The remainder of Term 3 will be dedicated to students breaking down the necessary Volleyball skills in order to compete in a round robin Volleyball tournament at the end of Term 3. Skills taught throughout the Volleyball unit include serving, setting, digging and spiking. Along with the physical skills required to competitively in the sport of Volleyball, students will also learn how to work as part of a team, build leadership qualities and learn how to conduct themselves on the field of play.

Students will be spending the duration of Term 4 exploring the many different ways the human body can be manipulated.

Students will engage in a weekly Gymnastics circuit designed to enhance abilities such as balancing, spatial awareness, take off & landing techniques and also common static & dynamic stretching exercises to prepare students for physical activity. At the end of Term 4, students will conduct a series of choreographed gymnastics skills to make up their very own routine. Students are encouraged to use skills learnt in Physical Education classes to help guide the routine. Peers will be assessed by the Physical Education teacher and be given feedback by their peers at the conclusion of the gymnastics routine.

Science

Year 5 students will be working on the Science area of Space and Earth Science with a focus on the Solar System and the planets. During Science lessons, students will be working in groups to look at a variety of planet's surface areas and create models of each one and test with a mini space rover. Students will also be learning about different areas of the Milky Way and how small Earth truly is. In Term 4, students will be studying Physics with an emphasis placed on light and the light spectrum.

Homework Guidelines:

Performing Arts

Rehearse your Success Day dance performance and share it with family and friends for feedback.

Visual Arts: Visual Arts

Practise articulating your thoughts and opinions on your artworks and the artworks of other people. You can discuss your ideas with parents, siblings or other family members.

Physical Education

Students are to choose ONE or more of the following homework items that is applicable to them.

- A) Play out in the backyard with some kind of sporting equipment for a duration of 30 minutes.
- B) Teach someone in your family one of the games you have learnt in Physical Education classes.
- C) Go for a walk with your family and or pet twice a week.
- D) Keep a food journal and track what you eat for breakfast, lunch and dinner .
- E) 20 push ups, 20 sit ups, 20 star jumps 3 times per week.

Science

Research the history of space travel and the progress humans have made in regards to investigating your planet.
